

## Contact Information for Bus Riders

Each year when you sign your child up to ride the bus, our school office submits the necessary form for you. Your school district of residence then completes the bus route for your child and communicates that to you, sometimes directly from the district, or they may provide a letter to us and ask us to pass it along to you.

Once your child boards the bus, the school district is responsible for your child until they arrive at school in the morning or at home after school. All the districts do a great job of communicating with our school, but some students are on the bus before our school office is open and after our school office closes at the end of the day. Because of this we are providing you with contact numbers of each district's transportation number in case you need to contact them directly. Please be sure to know your child's bus number if you need to contact the district so they can assist you promptly.

Central Dauphin Transportation Department- 717-545-4703 –ext. 281

CD contract with the following bus companies:

- Durham – 717-541-0680 ext.245
