

Private Enterprise Projects and Ventures and Use of Parish Facilities and Venues for Promoting and Publicizing Products and Services

St. Margaret Mary Parish provides meeting/activity space and a communication network to support and promote parish sponsored activities, ministries and organizations. Any parish organization/activity is welcome to use available spaces that are suitable for the event/meeting at the school, Youth Center, and church.

Although all these facilities have limitations (i.e. space, service capacity, schedules, etc.), they have over the years provided a resource to support the activities and services for the parish community and are still available to parish organizations and activities.

The use of these venues is limited to parish sponsored groups. Use by individuals for the promotion or sale of products or services , not directly related to a parish ministry, is not permitted. Rental of parish meeting and activity spaces will not be considered. Such publicity may be appropriate for the advertising section of the weekly bulletin. Exceptions may be made for community emergency needs, should they arise.
