## Inclement Weather Transportation Response for Non-Public Schools FAQ's

Q: What happens if STSD is on a delay schedule due to weather?

A: Non-public school students will be transported on the STSD delay schedule.

Q: What happens if STSD dismisses early due to the weather?

A: All STSD students will be picked-up from the non-public school on the same early dismissal schedule.

Q: Will non-public school students still receive transportation if STSD is closed?

A: No. STSD students will not be transported during a weather-related closing.

Q: How will non-public schools be notified of delays, closings, or early dismissals?

A: School offices should **NOT** rely on direct contact for information on delays or closings. Best practice is to monitor the news for school closing announcements and visit the STSD website at [www.hannasd.org](http://www.hannasd.org).

The STSD Transportation Department **WILL** contact non-public schools to notify them of an early dismissal due to weather. When in doubt, schools should call the Rohrer Bus Depot at 717-657-2741.

### Notes:

1. If a non-public school alters their schedule independently of STSD, the transportation department must be contacted immediately at 717-657-2741 (bus depot) to request transportation on the altered schedule. A follow-up email should also be sent ASAP to [dcooper@hannasd.org](mailto:dcooper@hannasd.org).
2. Communication to parents/families regarding a weather-related change in schedule will come from the non-public school, not STSD.
3. If weather conditions are such that a bus stop cannot be accessed on that day, STSD/Rohrer Bus will notify the families who are impacted.
