

Welcome to 5th Grade!

Mr. Rich

Friday, November 17, 2017

Parents: This is how I plan to assess the students in 5TH Grade Math & Science. As I mentioned at the “Back To School Night” I will teach a concept for about 2 days and if the students seem to understand the concept I will give them a Test or Quiz on that particular concept. Most of what we have been doing I had taught in my 4th grade classes during my career at Boiling Springs. As we progress, the material will get more challenging and I may have to have a longer duration of time before each quiz or test. As for Science, as I mentioned, I will try to “chunk” the material into smaller quizzes instead of big tests. So, even though the paper your child brings home may say “test” at the top, it should be considered a quiz.

5th Grade Math: finish up testing on 4 digits x 3digits on Monday. No homework.

5th Grade Science: Finishing up Ch1 “in-class” assignment and take the Lesson 3,4,5 of Ch.1 “Open Book,” notes & vocab lists test on Monday Nov. 20th (a change from Friday)

6th Grade Science: Finish up the “in-class” assignment and the “Open Book” notes, & vocab lists test on Monday Nov. 20th.
