

Welcome to 5th Grade!

Mr. Rich: Friday March 23, 2018

Parents: This is how I plan to assess the students in 5TH Grade Math & Science. As I mentioned at the “Back To School Night” I will teach a concept for about 2 days and if the students seem to understand the concept I will give them a Test or Quiz on that particular concept. Most of what we have been doing I had taught in my 4th grade classes during my career at Boiling Springs. As we progress, the material will get more challenging and I may have to have a longer duration of time before each quiz or test. As for Science, as I mentioned, I will try to “chunk” the material into smaller quizzes instead of big tests. So, even though the paper your child brings home may say “test” at the top, it should be considered a quiz.

5-1 MATH : None

5-2 MATH : None

5TH Grade Science: Open Book Test For Ch 8

Lessons 1-4 Is Tentively Scheduled For Tuesday April 3rd. Due to the ½ day on Wednesday March 28th and science being the 2nd part of the day I need to switch the test day.

Parents, I have adjusted the weights on the science & math grading scale in the hopes that - more in line with the work your children are doing in class. Please be patient with me, using the “weighted” system is new to me.

Respectfully, Mr. Rich.

6th Grade Science: Open Book Test Ch1 Earth:
The Water Planet- Sections 1-5 Rescheduled
For Tuesday March 27th.
