PARENTS:

When the children know one set of flashcards, please mix them in with the others and study them together. I want the multiplication and division piles to be kept separate. Also, please remember to keep studying the addition and subtraction facts because some of the children do not have them mastered. I am glad to see that more children are using the IXL program that the school got for us. Please be sure to check it out because they have plenty of skills for practice.

HAVE A GREAT WEEK!
